Edukacijski podaci

Vrsta: Priprema za nastavni sat

Znanja koja će učenici steći: The aim of the lesson is to encourage students to research and critically think about posters and their role in people’s life. Students will make a research on different types of posters: advertising, informative, motivational, movie, event, travel etc. , compare their purpose and appearance and determine the content, style layout, format, graphic elements they will use for creating one of their own. Finally, the students will create a poster on a theme they have chosen using an appropriate graphic application software.
