Namjena pripreme

Opis aktivnosti: What is school for you? Try to end the quote: "School is...." After the students share their ideas, reveal the complete quote "School is a building which has four walls with tomorrow inside." Ask some additional questions: If you could choose, would you ever go to school? Why? How would you change the school system if you could?

Aktivnost: What is school?- introduction

Opis aktivnosti: Depending on the number of students in class, prepare two sets of papers in two colours (for example red and green). Each set needs to contain one school subject written on one piece of paper. The school subjects written on green and red papers need to be the same. Give the students to randomly pick one green and one red piece of paper. They need to think of and write down one argument why the subject on the green paper should stay in the school programme and one argument why the subject on the red paper should be eliminated. After finishing, everyone shares their arguments.

Aktivnost: Pros and cons

Opis aktivnosti: Divide the students into groups. Each group needs to think of their ideal school and do the following: 1. make a list of 6 obligatory and 2-4 elective subjects (those can be anything they like) for their ideal school; 2. Think of a motto for their school; 3. Explain why other students should pick their school.

Aktivnost: Ideal school

Opis aktivnosti: Each group presents their ideal school. After all the ideas are pitched, let the students vote and pick their favourite.

Aktivnost: Pitch and pick
